

Live Interactive Music Experience

We play. You sing. Everybody wins.

WHAT WE ARE

Lead Singer Wanted turns any venue into an interactive live music event. Audience members pick from 160+ songs, scan a QR code to sign up, and sing on stage with a full live band. Music videos play on a giant screen. Custom technology handles signups, lyrics, and show flow. No backing tracks. No dead air. We close every show with the Entire Crowd Singalong -- the whole audience on stage together. It's the best night out you didn't know existed.

Live performance with projected music videos, QR signup queue, and full stage production
